

**TABLE OF CONTENTS**

	<b>Page</b>
Introduction/Preface.....	iii
Figures .....	vii
Tables .....	ix
1. Inorganic Analytes .....	1-1
2. Colorimetric Determination of Inorganics .....	2-1
A. Rates of Colorimetric Reactions .....	2-4
B. Complications Caused by the Sample .....	2-8
C. Colorimetry as a Measurement .....	2-13
D. Conclusion.....	2-13
3. Electrometric Determination of Inorganics .....	3-1
4. Spectroscopic Determination of Inorganics .....	4-1
A. Mass Spectrometry.....	4-9
B. Speciated Isotope Dilution Mass Spectrometry .....	4-10
5. Titrations .....	5-1
A. Equipment.....	5-2
B. Reagents.....	5-5
C. Endpoint Indicators .....	5-5
D. Titration Chemistries.....	5-9
6. Qualitative and Quantitative Analysis .....	6-1
A. Qualitative Analysis.....	6-1
B. Quantitative Analysis .....	6-2
C. Internal Standard Calibrations .....	6-6
D. Detection Limits.....	6-8
E. Multiple Standard Addition.....	6-12
F. Calibration Frequency.....	6-15
G. Calibration Documentation.....	6-17
H. A Note on Calibration Standards.....	6-19
7. Quality Control Acceptance Limits .....	7-1
A. Example of Walsh's Test .....	7-4
8. Instrument Quality Control.....	8-1
A. Atomic and Emission Spectrometry Instrument Controls .....	8-7
B. Mass Spectrometer Quality Controls.....	8-8
9. Laboratory Contamination.....	9-1
A. Contamination from Sampling.....	9-4
B. Blanks .....	9-5
C. Other Contaminant Indicators.....	9-10
D. Conclusion.....	9-11
10. Assessing Target Analyte Recovery .....	10-1
A. Surrogates .....	10-1

## **vi** INTERPRETATION OF INORGANIC DATA

B. Matrix Spikes and Laboratory Control Sample .....	10-2
C. Duplicates .....	10-5
11. Other Data Assessments .....	11-1
A. Processing Solid and Oily Samples .....	11-1
B. Holding Times and Temperature Preservation .....	11-2
C. Laboratory Documentation.....	11-5
D. Performance Evaluations .....	11-7
12. References .....	12-1
Appendix A. Holding Times, Containers, and Preservatives for Wastewater .....	A-1
Appendix B. Elements .....	B-1
Appendix C. Periodic Table.....	C-1
